

PRECAUTIONS: This product is very toxic to aquatic organisms. Do not get in eyes, on skin or clothing. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing the spray mist. Do not eat, drink or smoke while working. Wear protective clothing such as long-sleeved shirts and pants when using this product. Wash with soap and water after working. Do not spray within 50 meters from wetlands or waterways.

BABALA: Ang produktong ito ay maaaring makalason kapag nalunok, nalanghap, o napunta sa balat. Huwag kumain, uminom o manigarilyo habang nagbobomba. Iwasang malanghap, malagyan ng mga mata at madikit sa balat ang kemikal. Magsuot ng damit pananggalang habang ginagamit nito. Hugasan ng sabon at tubig ang kamay, braso at mukha bago kumain at manigarilyo. Huwag gamitin uli ang sisidlan ng produkto. Iwasang maapektuhan ng kemikal at ang mga sisidlan ng anumang pinagkukunan ng tubig.

FIRST AID: On skin contact: After contact with skin, wash immediately with plenty of water and soap. If irritation develops, seek medical attention. **If inhaled:** Keep patient calm, remove the patient from the source of exposure, and seek medical attention. **On contact with eyes:** Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open, and consult an eye specialist. **On ingestion:** Rinse mouth immediately, drink plenty of water, and seek medical attention. Do not induce vomiting unless told to by a poison control center or doctor. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions.

NOTE TO PHYSICIAN: Treat according to symptom (decontamination, vital functions). No known specific antidote.

KEEP OUT OF REACH OF CHILDREN

Net Content: 300 ml

Cadre® 240SL is an herbicide containing 240 g ai/L Imazapic. Cadre® 240SL is a broad spectrum herbicide that provides excellent control of grassy and broadleaves weeds. It is an acetolactate synthase inhibitor acting on new growth of treated weeds. It is applied as pre-emergence and early post-emergence spray treatment.

Direction for use: Cadre® 240SL should be applied to plant or ratoon cane before the leaf unfolds.

CROP	WEEDS	RATE OF APPLICATION
		mL/ha
Sugarcane	Grasses & Broadleaves	300 - 400

Mixing: Fill 30% of the total water to knapsack sprayer. Add the recommended rate of Cadre® 240SL (12 to 16 ml/16Lwater), then agitate. Add the rest of the water to complete the total volume.

Compatibility: Cadre® 240SL is compatible with atrazine, glyphosate, paraquat, 2,4-D and other herbicide products. **Re-entry period:** As soon as spray droplet dries. **Pre-harvest interval:** No pre-harvest interval

Storage and Disposal: Store Cadre® 240SL in original container, tightly closed, away from food and feed by storage or disposal. Triple rinse container, then offer for recycling, or puncture and dispose off in sanitary landfill.

PROHIBITION AND WARRANTY: It is a violation of the FPA rules and regulations to use this product in a manner inconsistent to its label. No warranty of any kind, expressed or implied, is made concerning the use of this product. User assumes all risk and liability resulting from handling use or application.
